EDUCATION

Bachelor in Electrical and Computer Engineering Technology May 2028

Western Carolina University Cullowhee, NC

- Program GPA: 2.999

RELEVANT COURSES

MATH 153 | MATH 255 | ECET 231 | ECET 242 | ENGR 123 | CPE 223 | CPE 233 | EE 221 | ECET 250 | ECET 290 |

KEY SKILLS

Computer Programs: OnShape, 3DCAD, Fusion EAGLE
Languages: Java, C/C++
Skills: Circuit Design, Electrical Repair

Personal Projects

1998 Jeep TJ May 2023 – Present

- Restored a project Jeep from frame-up, transforming it from a rusted red/black TJ into a fully rebuilt Green TJ.
- Performed mechanical and electrical work including sandblasting the frame, wiring for gauges/ lights, and building a custom fiberglass dashboard.
- Repaired engine damage by replacing a broken #4 piston skirt, honing cylinders, and installing new bearings and seals.

Custom PCB & Raspberry Pi Controller April 2022 – April 2022

- Designed a custom PCB layout and coordinated fabrication through a third-party manufacturer.
- Assembled and soldered the board, integrating 8 cherry MX Red mechanical switches.
- Programmed a raspberry Pi to interface with the switches, enabling customizable input functions.
